Hard Boiled Eggs

- 1 dozen eggs
- 1 teaspoon vinegar
- Pinch of salt
- Deep Pot with water

Fill up a large pan half-way with water and gently add eggs. Cover them with at least one inch of water. Add 1 teaspoon of vinegar and a pinch of salt. Bring the water to a boil. Cover and remove from the heat. Let sit covered 12-15 minutes. Drain hot water from the pan and run cold water over eggs. If you crack the egg shells while they are cooling, it will make them easier to peel. Let sit in the cool water 10 minutes, changing the water often to keep it cool.
